Serial No.

16) So far as I can remember, the instructions of the First Member to the Superintendent, Government Printing, were that he should send to all the Heads of Departments and the Deputy Commissioners of Districts particulars of the printing work actually done for them with details of cost etc., to enable them to examine which of the usual work may be restricted or eliminated in order to restrict expenditure on printing. The instructions of the First Member were similar to those contained in Clause (V) of para 2 of the Government Order of 1st June 1922. The First Member said that unless the Heads of Departments and the Deputy Commissioners of Districts had some knowledge of the cost of the several works executed for them they would not be in a position to restrict expenditure and the object of the limitation of the allotment towards the printing charges of each department in the books of the Superintendent would serve no purpose unless each Head of the Department and Deputy Commissioner knew what the cost of the normal work of his department was and also had information to enable him to restrict expenditure to the revised allotment fixed against his office.

G. R. S. III-2]

General and Revenue Secretariat. | 822 File No. 40 of 1922

Serial No.

17) In his letter dated 2nd September 1922, the Superintendent says this information has not been furnished as reported in his letter No. 4658. dated 20th June 1922. No allusion to this matter has been made in the letter referred to. If the Superintendent could restrict expenditure on the printing work of each department to a fixed money limit defined beforehand, he should have no difficulty in providing information of the cost of the several works executed for each Department. I beg to submit that unless particulars of the normal cost of the works executed for them are previously furnished to the Heads of Departments and the Deputy Commissioners of Districts so that they might know how far they could reduce their printing charges by the elimination of avoidable matter, the fixing of a money limit for each department is more likely to cause friction and dislocation of work than reduce expenditure.

General and Revenue Secretariat.

N.S. File No. 110

Serial No.

18) Evidently the Supt of the Govt Press cannot furnish the Heads of Departments and the Deputy Comm with accts for the last, for the reason that he has not maintained the accounts. The Supt gives Rules as the reason for the omission in his letter of 21st June 1922. Something has to be done. The draft S.O. 4 Careful wording. It begins by giving Periodical orders on the items of work to be done for each Department. I have now added the word tentative in the draft. Accounts will according to the draft be sent every quarter and if the Govt does not work in a week, the Department concerned can make a representation. A beginning has to be made and mistakes in estimate can

G./R. S. III-2]

General and Revenue Secretariat. | NH File No. 40 of 1922.

Serial No.

be rectified in the light of experience gained. The one great advantage in issuing the G.O will be that it will give the Supdt & Key accts and the Heads of Depts and Deputy Comrs & be as economical as possible. We have of course on the other hand & be prepared to modify the G.O as necessity shows therefor—

Member 17/10/22

A. I am afraid I do not understand this. Is it an inference or a statement based upon definite knowledge? I should have thought that the Supdt would have found it possible to furnish at least approximate figures to go on with. Surely from the requisitions received, books & samples with regards Printing & Printed forms, the Supdt can give us some approximate figures. If he cannot do so all that can be said is that the system of

General and Revenue Secretariat. | File No. 40 of 19

erial No.

25) These two files relate to two allied matter They are --

(i) Superintendent's letter No. 4653 da... ... 21st June 1922 proposing reduced money allotments for the printing work of the several departments (File 40-2

(ii) Revision of the standing list of the printing works of each department by the Heads of Departments and Deputy Commissioners with reference to the cost of the printing works to be furnished by the Superintendent. (para (v) of G.O.No.M.5501-60/P&S 74-21-1 dated 1st June 1922)

26) Both these items presuppose that accounts are maintained of the valuation of printing works in the Pres in respect of each work of each department. In his letter No. 4653 of the 21st June 1922 referred to above the Superintendent states that 'no regular departmentvar accounting was possible during all this period' i.e., in 1919-20 and in 1920-21. This leave no doubt therefore that his proposed money allotments is quite arbitrary and not based upon the work done for those departments in the two or three preceding years. The proposed money allotments cannot therefore be accepted and the Superintendent's proposal regarding money allotments cannot therefore be sanctioned.

27) A well-considered scheme of economy in printing

Serial No.

work was contemplated in para (V) of the Government Order of the 1st June 1922 but owing to the serious dereliction of duty in the Press in not continuing to maintain the departmental accounts of expenditure on printing work which have been kept since 1890 this is rendered impossible as heads of departments have now not sufficient data for the revision of the standing list of printing works.

28) However as the budget allotment for expenditure on printing has been reduced from Rs. 2,14,100 in the last year to Rs. 1,54,200 in the present year, all departments have to co-operate in reducing printing work so as not to exceed the budget. It is suggested therefore that for the present, a departmentvar statement of expenditure on printing for the 1st quarter of this year i.e., July, August and Septembe be obtained from the Superintendent of Government Printing and a Circular issued to the several depart ments for reducing printing work to the minimum. Th Superintendent may be requested to communicate to each department every month the cost of printing in- curred in respect of that department foreach item of work in the standing list of printing works and to send a consolidated abstract statement of the total expenditure on printing for each department every month to the Secretariat. This will furnish some

method of watching expenditure but seems more important as ensuring the supply of the data by the Press. The Heads of Departments may be requested on the basis of these statements of cost received everymonth to propose revisions to the standing list from time to time so that a revised list may be adopted without delay or difficulty in the next year.

29) Some of the Departments have sent proposals for revision but the financial effect of these proposals cannot be ascertained. The revision may perhaps be taken up once for all in the light of the Statements of cost.

(General Secy.) 14/11

30) The above suggestions may perhaps be approved

Member 23/11/22

33) To Rao Sahib (Sri Ranganatha Mudaliar) with compliments

29/11/27

Revd 25/11

34) The note proposes to obtain information regarding the cost of printing work executed for all Departments during the first quarter of the year. It is not clear how this information can be supplied if no accounts are maintained. In regard to this question of the non-maintenance of Accounts I would beg to invite attention to statements III and IV of the Annual Report on the working of the Govt Press for 1921-22. Statement III gives particulars of the pages composed, impressions printed and number of Books bound for each Deptt and Statement IV gives particulars of actual expenditure for the different items of work carried on in the Govt Press. If these statements are prepared from books properly maintained it is not clear why there should be any difficulty ~~in~~ for ascertaining ~~in Regard to~~ the cost of work executed for each Deptt. I enclose report of 1919-20 which also gives similar particulars.

de supposed to be introduced 8th June 1922 which date etc will be maintained on 1-7-1922.

The General Secretary with

A S O 19/12/22

35) The Superintendent may be requested to explain unofficially what is meant by his statement in his letter No. 4653 dated the 21st June 19 to the following effect:

'It was not possible to open regular account for each department for the year 1919-20. It took x x x x x and that no departmentwar accounting was possible during all this period

36) This cannot be correct as Statement III appended to the Administration Repo shows. The cost can be calculated in a few hours as the Superintendent has given in the administration Report the cost per unit for composing an for printing

41) I had a talk with the Special Officer. It is noteworthy the Supdt does not say anything about

Serial No.

Statement-IV - Analysis of charges for the year 1921-22. This is perhaps due to the fact that his attention was not so much drawn to the basis of an account of this kind. Did not provide to correlate both these statement and find out the value of work turned out - for the various heads of Dept of work in the Supdt. might request to meet the Asst Secy and enquire in order to find out a solution. At time convenient to the Supdt. will send

16.1.23

43) I had a long discussion with the Asst Secy and the Press Supdt. The latter has explained in detail the method that is being followed in the press in arriving at the estimate of the quantity of work turned out and the cost per unit. Roughly speaking the whole thing is an argument in a circle. The cost per unit is fixed on the result of actual experience. The quantity

Serial No.

work turned out is arrived at for actual expenditure at so much per price page. On the other hand the quantity of work received from the various departments is expressed by the totals of pages of printed matter of all sizes and matter and there is no ready available method for reducing this quantity into terms of price pages. Thus there is no common denominator for evaluating the value work done in terms of cost incurred.

44) The Supdt has explained in detail in his further letter of the 23rd June and he has suggested a test of ready method for rough calculation of the work turned out for any department. This letter may be circulated to the Heads of Depts who will then be in a position to have an approximate idea of the amount of work done for them and the cost. Whilst they can have further printing done in their

From the Supdt, Govt Ptg. no. G 5776 dt 29.1.25
Forwarding a list showing in detail the larger items of printing work (costing Rs 100 & more) & the total cost of smaller works done in the Press for the financial year 1924.

Serial No.

86) Submitted with reference to para 73. In accordance evidently with instructions given at the discussion of the question with the Superintendent, a statement was called for showing the cost of the work done in the Press for various departments in the years 1922-23 & 1923-24. The Superintendent suggested that the question of making money allotments by departments may be dropped and did not send the statement called for. As there are two questions under consideration in this file namely the question of making money allotments by departments and that of revising the list of obligatory working departments the Supdt was asked to send a statement showing the larger items of work done for the various departments in 1923-24 and the cost of the smaller items costing less than Rs 100/- each

87) It appears from the list that many items of work are of a casual nature and of such that cannot always be even estimated approximately correctly. The Superintendent says that the question of allotment of money by departments in the Press [illegible]

He quotes in support of the view the opinion of the Controller of Printing with the Government of India that such allotment is not possible. This question may therefore be dropped

88) As regards the revision of the list of obligatory work to be done for each department the list received / minutes of the larger items of works - costing ~~over~~ Rs 100 or more — and the total amount of the smaller items for the year 1923-24. If approved, the list received from the departments will be compared with the list received from the Press Supdt and a revised list prepared of the items that it may be made obligatory on the Press to print

89) For personal orders.

Mr 7/3/25

To

S. Hiriannaiya, Esq., M.A., B.L.,
Secretary to Government, General Department,
Bangalore.

23 JUN 1922
JUDICIARY AND MISCELLANEOUS

Sir,

Adverting to Government Order No. G. 12721-80/P. & S. 4-18-60, dated 3rd December 1919, re: the fixing of a money allotment for printing work for the several departments of the state, I beg to state as follows:-

The above Government Order was received in the Press in December 1919 when the first half of the official year was almost over and thus it was not possible to open regular account for each department for the year 1919-20. I had however arranged to start these accounts afresh from 1st July 1920, with the commencement of the official year, but unfortunately strikes occurred in the Press, and all works were so much dislocated that no regular departmentwar accounting was possible during all this period. The Press has been brought into its normal working order now, and proper accounts will be maintained with effect from 1st July 1922, in accordance with the Government Order, with the modification that the money allotment amounting to Rupees 2 lakhs as shown in the ~~xxxx~~ Annexure A appended to the order will be cur-

tailed by fifty per cent as shown in the list enclosed, owing t the Budget allotment for the year 1922-23 been reduced to Rupe ,,54,200/- from Rs: 2,26,186/- and in accordance with the Gove ment Order No. M. 5501-60/P. &. S. 74-21-1 dated 1st June 1922 directing the reduction of printing work by 50%.

The number of departments appended to the Government Order dated 3rd December 1919, requires also to be modified, as the marginally noted departments are in existance now. The list enclosed accordingly shows the names of existing departments and the reduced money allotment made to each, bringing the aggr gate allotment to Rs: 1,00,000/-.

1. Plague.
3. Ethnography.
5. Exhibition.
6. Sanitary.
9. Unforeseen.

The Three departments, Viz., (1) Railway 2) Univer... and (3) Insurance are not included in the list, being paying-departments and do not also affect the Budget.

I request that the modified list and allotment may be kindl approved and early orders passed.

I have the honor to be,
Sir,
Your most obedient servant,

Superintendent.

6- SEP 1922

To

B. Venkoba Rao, Esq., B.A.,
Secretary to Government, Gener_
Bangalore.

Sir,

With reference to G.O.No.M.5501-60/P.&.S. 74-21-1, dated 1st June 1922, re: the economising use of Stationery and reducing printing work and directing the Superintendent, Government Printing to furnish the Heads of Departments, etc with a list of printing works showing the number of foolscap pages, cost of paper and cost of printing in each case usually done for their departments, I have the honor to state that I have forwarded a statement showing the printing works usually done in the Government Press for their departments with the exception of number of pages, cost of paper and cost of printing in each case as they were not possible to mention in the list as already reported to Government in my letter No.4658, dated 20th June 1922, re: the fixing of a money allotment for printing works for the several departments and explained the circumstances in detail regarding the difficulty in keeping xxxxxx up regular accounts to each department during all these periods.

I further beg to state that in my above letter I did not include the Sanitary Department in the list as it was proposed to be abolished, but the Senior Surgeon has since been made ex-officio Sanitary Commissioner with effect fxx

from 1st July 1922. I therefore request that you will kindly order that this department may be incorporated in the list allotting a sum of Rs: 500/- for executing this departmental work and this amount may be deducted from Rs: 1,250/- allotted to Sandal Oil Factories to bring th aggregate allotment to Rs: 1,00,000/- only as originall fixed in my above letter and as the work of Sandal Oil Factories is very limited on account of its work being of a commercial nature and given outside as directed by Government in their Order No. M.3457-61/P.&.S. 52-21-1, dated 10th February 1922.

I have the honor to be,
Sir,
Your most obedient servant

Superintendent.

N.B.—Should routine notes be written on small slips, the notes must be copied, or slips pasted on this form.

OFFICE OF THE SUPERINTENDENT,
GOVT. PRINTING, MYSORE.

Bangalore, 4th January, 1923.

In reply to your D.O. No.E.4106/P. & S.40-22
dated the 2nd instant, I beg to state as follows:-

The Statement No. III referred to in the D.O. under reply gives only the quantity of work done and not its cost. The number of pages of all sizes composed, the impressions printed and books bound are easily compiled from the vouchers of workmen as entered in the various Press Work registers. Not so the cost, for which an elaborate system of accounts has to be maintained for each department. The cost of composition, printing and binding and the value of paper and other materials used and overhead expenses to be charged for each job have all to be carefully ascertained and tabulated for each department, as per valuation sheet attached. This work is not so easy as the preparation

No of statement III which is not a financial statement but only a list showing roughly the quantity of work, consisting of all sizes, types and different kinds of binding of various books turned out for each department

Yours sincerely,

31.10.22.

To Mr Ramachandra Mudaliar

In your letter No. 4658 dated the 21st June 1922 to you have requested the sanctioning of money allotments for the several departmental printing work of the several departments. In your letter No 6739 dated the 2nd Septr 1922 you have stated that it is not possible to furnish the cost of paper and printing for the several printing works done for the departments ~~to the former~~

~~necessarily for consideration as a system~~
~~of valuation~~ The revision of the
standing list of printing works
for each depart[illegible]der
consideration as you know.
The first presents a system of
valuation wherein which a money-
limit has no meaning. The second
would shew that you cannot pro-
vide the cost of the printing works
Therefore the ~~third question~~ of the
financial effect of any proposed
revision or even whether the ~~standing~~ revised
~~d~~ list of printing works would
correspond to the money-limit

SOLEPA ETTS-MASSEY

cannot be verified. As the position disclosed by the several references is not clear I shall be glad if you can kindly come over ~~at any time~~ on any day this next week during office hours for a discussion of the matter personally with needful references.

Yours sincerely

No. 1827. Office of the Superintendent,
Government Printing,
Bangalore, 23rd January 1923.

D 3187

From

D. B. Ramachandra Mudaliar, Esq., L.R.A.M. 40-22-8
Superintendent, Government Printing, Bangalore.

To

G. Aravamudu Iyengar, Esq., B.A., B.L.,
Secretary to Government, General Department,
Bangalore.

Sir,

In continuation of my letter No.1810 dated the 4th instant explaining the details of Statement No.III, I beg to submit herewith the working of the figures arrived at for converting the corposed matter of all sizes into foolscap folio and the cost incurred on a pica foolscap folio including all charges detailed in the Statement No.IV under composing.

Para 10 of the Administration Report for the year 1921-22:- Outturn of work in the Central Press, Bangalore for 1921-22 (Statements III & IV). The number of pages of various sizes composed was 74,456 against 72,181 in 1919-20. These pages converted into pica foolscap, according to the cost incurred on composing aggregated 48,102 against 44,539 in 1919-20.

Working:- Total wages paid for composing for the whole year as per statement III is Rs.37,328-10-11.

Wage paid for composing a pica foolscap page is Rs.0-12-5 as per Ready Reckoner. The total amount, viz., Rs.37,328-10-11 divided by Rs.0-12-5 gives the number of

pica foolscap, i.e., 48,102 composed as specified in the Report.

The cost per page <u>including all charges</u> is arrived a as follows:-

As stated in Statement No.IV the total cost on composing <u>including all charges</u> is Rs.81,998-13-4. "All charges include cost of composing, proof reading and supervision charges. This amount divided by the number of foolscap pica pages composed during the year gives the acti cost per page, including all charges, viz., Rs.1-11-3 as arrived at and embodied in the Report vide para 10. The preparation of Statement No.III has been clearly explained in this office letter No.1610 referred to above.

The entry in Statement III of the value of each work for each department of the State is not possible for the following reason:-

In order to give the exact cost of works executed for each department, all jobs that are received in the Press both directly and on indents have to be examined and sorted districtwar and according to the department to which it belongs. The number of regular jobs handled in a year is about 5,000 and those on the indents at least 10,000. The value of each job has to be calculated on the composing line account, machine account and binding account vouchers and as most of the jobs are executed by more than one compositor, machine man or binder, there will at least be seven vouchers on an average for each job to be dealt with as per typed sheet (about 1,05,000 vouchers in all.) After the calculation is made on all these thousands of vouchers, relating to all the jobs received in the Press, the vouchers of each job have to be collected and the value of each job has to be

totalled and entered in a sheet called the Job cost sheet opened for each Job. For this four persons ~~at least~~ are quite necessary. After all the values of all the vouchers have been entered in the sheets the tabulation of all jobs according to the department to which they refer and to the districts to which they belong has to be done. This is a big task entailing great care and attention. ~~xxx~~ As all this calculation, tabulation and examination of all the thousands of jobs that pass through the Press have to be completed within a limited time for the Administration Report, the magnitude of the work involved for furnishing the information will be apparent. The following rates may be taken by the departments as basis for calculating approximately the cost of composing and printing 1,000 impressions of their respective works, exclusive of the cost of paper.

1. Pages set up in Foolscap folio, Pica type for Reports, etc.	... ...	2-4-0 per page
2. Do in small types for contents and Index, ~~work~~ etc.	... ...	3-12-0 "
3. Pages set up in small types for Book works, etc., in Octavo size	...	2-2-0 "
4. Pages set up in Foolscap Folio in small types for tabular statements in Reports, etc.	... ...	5-8-0 "
5. Do in Octavo size	... ...	3-4-0 "
6. Skeleton pages set up in Foolscap folio for indent works, etc.	...	1-2-0 "
7. Do in Octavo size for book works such as nuals, etc.	... ...	1-0-0 "
8. Letter headings and covers	...	1-8-0 "

Note:- As there are different styles of binding, the rates for bare will be intimated to departments on requisition.

I have the honor to be,
Sir,
Your most obedient servant,

G. Ramachandra Rao
Superintendent.

Letter-headings to be charged at Re.1-0-0

Cover-headings, big size " 1-0-0

-do- small " 0-8-0

The above rates are subject to the conditions given overleaf.

Superintendent.

angalore,
February 1923.

Conditions.

1. Original copies should be typewritten, printed or clearly and legibly written. 10 per cent extra will be charged for illegible copies.

2. Of book work, one galley proof and one page proof will be sent. Any proofs required in excess of this will be charged as extra.

3. All changes from the original copy, or from subsequent proofs and all additions will be charged for on the basis of the time involved in making the corrections thus required.

4. Proofs should be returned promptly and the Press reserves the right to make an extra charge for delay of proofs exceeding one week as such delay involves keeping type standing which may be required for another work. No responsibility will be accepted for errors in proof passed by customer

5. Customer's property, when supplied, will be entirely at customer's risk as regards fire or other ~~unforeseeing~~ unforeseen damage. Every care will be taken to get the best results where materials are supplied by customers but responsibility will not be accepted for shortage, imperfect work caused by defects in or unsuitability of materials so supplied.

6. Every effort will be made to carry out any contract based on this quotation, but the due performance of it is subject to variation or cancellation owing to an act of God, War, Strikes, Lock-outs, Fire, Losses and Delays in Shipping or any other cause beyond our control; or owing to inability to procure materials or articles except at enhanced prices due to any of the foregoing causes.

TERMS AND CONDITIONS.

It must be understood that this estimate should be accepted on the following conditions:—

1. The manuscript must be clearly and legibly written and handed over once for all.

2. Of book work one galley proof and one page proof; of commercial formes, etc., one proof only will be sent. Any proofs required in excess of these will be charged as an extra, including the postage thereon.

3. No extra charge will be made for the corrections of printer's errors; but all changes from the original copy, or from subsequent proofs and all additions will be charged for on the basis of the time involved in making the corrections thus required.

4. Proofs should be returned promptly; and the press reserves the right to make an extra charge for delay of proofs as such delay involves keeping type standing which may be required for other work. No responsibility will be accepted for errors in proof passed by customer.

5. Customer's property, when supplied, will be entirely at customer's risk, as regards fire or other unforeseen damage. Every care will be taken to get the best results, where materials are supplied by customers, but responsibility will not be accepted for shortage, imperfect work caused by defects in or unsuitability of materials so supplied.

6. Estimates for publications are given upon the condition that not less than three months' notice is given to terminate the contract for the printing of monthly publications, and, in the case of weekly publications, not less than one month's notice.

7. Every effort will be made to carry out any contract based on this quotation, but the due performance of it is subject to variation or cancellation owing to an Act of God, War, Strikes, Lock-outs, Fire, Losses and Delays in shipping or any other cause beyond our control; or owing to inability to procure materials or articles except at enhanced prices due to any of the foregoing causes.

8. 50% of the estimated cost of Printing, Binding and Printing Materials to accompany the order as advance. The balance to be paid on delivery of the copies or by V.P.P.

Prices are current for ***TEN DAYS*** and are subject to market fluctuations and Intermediate Sale. Our responsibility ceases on delivery of goods at Railway Station or to carriers.

Dear Sir,

Your letter No. E 5647 G & S 40.22.17 is to hand. I shall be very glad to do anything to help you personally, but I should like to know just exactly why you are asking us for all this detail as to our rates for printing and composing.

The Education Department, who are apparently deriving benefit from this information which we are asked to give, have not given this Press any work since the time of Mr. Bhabha, and have only apparently asked us for estimates so that they might have the benefit of checking someone else's work by our figures.

The letter asking for this information comes from your office, but the signature of the Assistant Secretary to Government, Education Dept., who signs it, is not decipherable.

I am, Dear Sir,

Yours faithfully,

Thos. Gould.

Ref 4925/CA DJ 11/4/23

Dear Mr Jones,

I received your letter of the 5th April in regard to certain information asked for in the Press Statement (P.25) which I sent to Scott, and as this is not one of the departments dealt with by me, I sent it on to the Treasury. I have since had the file of papers. It is clear that the information was not asked for in the Estimates sent by the Exchequer, but is wanted for a comparison with the Post-Bureau and the net returns of Private Banks, so that, if the Customs Estimates were favourable, it would hamper me in making Private Banks pay? I will see you on the subject when I return the information asked for.

Bangalore.

Sir,

With reference to your letter No.E.18/P.& S.40-22-20, dated the 5th ultimo, I have the honor to state that the detailed statements of Printing works done during 1922-23 for each Department will be submitted by the end of this month, as certain works which were incomplete at the end of the Official year are being valued for incorporation in the statements.

I have the honor to be

Sir,

Your most obedient servant,

Offg. Superintendent.

Admitted subd for perusal
14.8.23

SUPERINTENDENT, GOVERNMENT PRINTING,

With reference to your letter No.E.18/P.& S.40-22- dated 5th July 1923, and subsequent reminders thereto, I h. the honor to forward herewith, an abstract and a detailed statement of works executed in the Press during 1922-1... each department, under the several headings given in your letter under reply. It will be seen from the statement that the cost of works produced in the Press during the year amounted to Rs 2,68,396/- which includes wages paid, materials consumed, paper used and all overhead charges

2. The compilation of these figures being the first of its kind undertaken in the Press, there has naturally been shortcomings in the details given in the statement, as nearly 5000 jobs had to be dealt with individually for calculating the cost. But the figures serve to furnish a general idea of the quantity and cost of works done for each department and can only be put down as approximate, as it has been well-nigh impossible to value each job of each indent which run to thousands of forms.

3. I therefore beg to suggest that before fixing the cost for each department for future guidance, another trial

be given to value the jobs of the Press during the current year so that a comparison of two year's figures ~~could give us~~ that enables us to furnish a more accurate and workable data to base our money limits upon. As I have introduced a more methodical arrangement from the commencement of this Official year for valuing each work as it is received in the Press, I believe that the results that we shall arrive at the end of this year will give us a clear grasp of the needs of each department than the statements now presented to Government can show though there need be no apprehension ~~of~~ about the latter serving as a preliminary standard of general departmental needs.

4) In these circumstances, I beg that before taking a definite step forward in money allotment, another trial is given for the preparation of the cost of jobs executed during the current year also

No: 2065 Enc. 1 Statement

Office of the Superintendent,
Government Printing in Mysore,
Bangalore, Dated, the 29th Dec. 1924.

From

B. PUTTAIYA, Esq., B. A.,
Superintendent, Government Printing in ~~Mysore,~~
BANGALORE.

To

K. MATTHAN, ESq., B. A.,
Chief Secretary to the Government of
His Highness the Maharaja of Mysore,
BANGALORE.

Sir,

With reference to correspondence ending with your letter No: G. 13874/P. &. S. 40-22-22, dated the 21st April 1924, I have the honour to state that as stated in my letter No: 1088, dated the 3rd October 1923, arrangements were made from the commencement of the official year 1923-24 for valuing each work as it was received in the Press by noting the actual wages paid in respect of it at each stage of its execution and the cost of paper and other materials actually ~~received~~ required in the course of its execution. This information was collected from the vouchers given by the compositors for valuation and from the pressmen's and binder's accounts month by month so that an accurate record was available of the amounts actually disbursed in the shape of wages, materials, etc. To these have been added all the direct and overhead expenses so that the actual cost incurred on each job has been ascertained and tabulated. Statements prepared in accordance with this procedure and showing the out-turn and cost of works executed for the several departments of the State, including the paying departments, is published in the Administration Report of the Press for 1923-24 on pages 10 and 12 (vide statements

Statements III and V). A consolidated statement is herein enclosed for ready reference. These statements will be continued to be published in future years also.

As regards allotment of money to each department on the basis of the expenditure incurred for that department, as shown in the consolidated statement, there seems to be no necessity for it, as the Government Press is a service department doing the work of all the departments of the State on the gross grant made to it by Government. If, in any year, the allotment is found to be insufficient, Government will provide more funds on my showing adequate grounds for increased expenditure. This seems to be a simple and economical arrangement and sufficient for all the practical requirements of a small printing Press like ours where the works turned out are neither on a huge scale nor complicated by multitudious variety. Most of our works are all standardised foolscap reports and forms and what little variety there is does not call for any special and expensive process. The bulk of the work is sent by Government and two or three large departments like the Education and Financial Departments, whereas in the case of other smaller departments the volume of work turned out for them is too little to be of any material value and too inadequate to require an elaborate billing and money-collecting establishment such as is required for an organisation worked on a money allotment system.

If the Government wants to have an idea of the cost of the works executed in the Press for the various departments, so as to enable them to take suitable measures to reduce the expenditure in case they find it heavy or uncalled for, the enclosed statement will give all the needed information. Further details of work that

contributed to the swelling of the cost, if any, can easily be ~~published~~ furnished from the data available in the Press in order to enable them to decide which work can be curtailed. But if they intend that the Press should be worked on a commercial or a quasi-commercial concern and on a profit-earning system, that will be trenching on the province of a private press whose object is to make as much money as it can, whereas in the Government Press efforts are always being made to ~~produce~~ produce work with as little cost as possible, having recourse to all possible economies, without an eye to make money and without adopting expensive methods of printing. Moreover, in doing work for the University, Railway, Education, Insurance and other departments, the Press is already working on quasi-commercial lines and further extension of this principle does not seem necessary.

There are also, it appears, certain practical difficulties from the financial point of view in working the money allotment system. Mr. J. S. Chakravarthi who was Comptroller to Government in 1915 stated in his letter No: R. 86, dated the 27th August 1915 addressed to Government, that it is necessary to work the Government Press as a Service Department for the general conduct of the business of Government, and that "the system of sending bills to each Department is not only unnecessary and against the principles on which the department is worked but it will also entail, if introduced, a considerable amount of work not only on the Press in preparing and keeping an elaborate account for recording the value of work done but also on the other departments in requiring them to keep an account of all such bills received for adjustment and arranging for their adjustment. Correspondence will also increase and sooner or later there will be applications for additional

(246

establishments from all offices. Taking all these into consideration, I think it best to let the matter alone as heretofore."

Further, the system entails a revision of the budget heads in order to provide for allotments for printing in the budgets of all departments and for receipts in the Press Budget and, I believe, the present Financial Secretary is opposed to any such change in the budget.

The Controller of Printing, Stationery and Stamps with the Government of India who has given careful consideration to the subject has recorded the following opinion in the Note on the costing system in Government of India Press submitted by him to the Government of India, dated 5th November 1923 :- " It may be mentioned that the Government of India have considered very carefully the question of restricting printing by limiting departments by monetary allotments. The proposal has been abandoned as impracticable as it has been recognised that departmental requirements vary to an extraordinary extent owing to administrative necessities. On the other hand, no difficulty has been experienced under the present system in calculating expenditure by departments, and it has been found feasible to restrict expenditure without an upheaval of the costing system. "

When he visited Bangalore in October 1924, I personally consulted him on the subject and he gave it as his opinion that "the system of money allotment is open to objection because the departments cannot foresee the quantity of work that may have to be got printed and when they do want that some work that has been sanctioned by Government to be printed, they may be confronted with want of funds to meet the cost of the new and unforeseen work.

When requirements are so uncertain, the allocation of a definite sum of money to each department becomes a difficult proposition. Another more powerful objection is that every department acquires a tendency to spend away all the money allotted to it for printing and consequently the probabilities of effecting savings become remote, and control over the printing requirements of the departments vanishes."

In the words of Mr. J. S. Chakravarti, " I doubt whether the transfer of printing charges from the Press Budget to the departmental budgets by itself will be of any help in keeping down the cost of printing. On the other hand, if the benefit of the present concentration of most of the printing work in the Government Press is lost, the result may be just the opposite of what is comtemplated. "

For the foregoing reasons, I am of opinion that the present system of finding out the cost of work done for the several departments and publishing it in the form of an annual statement in the Administration Report of the Press will meet all requirements. Money allotment is beset with many practical difficulties and tends to take away the wholesome control which Government now possess over the allotment to be provided for the printing requirements of the several departments of the State.

I have the honour to be,
Sir,
Your most obedient servant,

Superintendent,
Government Printing

To

The Superintendent,

Government Printing,

Bangalore.

263

G84/89 30 4·25

Sir,

With reference to correspondence ending with your letter No. 2065 dated 29th December 1924 representing that for more reasons than one the system of fixing money allotments for the total amount of printing work to be done in the Press for the several departments is not helpful and requesting that the question of introducing that system may therefore be dropped, I am directed to state that -- Government concur in the view expressed by you and are accordingly pleased to direct that the question may be dropped. A correct system of valuation of ~~each~~ jobs and a ledger showing the work done for each department may however continue to be maintained.

2. Government consider that the standing list of obligatory printing work executed in the Government Press without the previous sanction of Government as prescribed in Government Order No.G.1390-56/G.P. 24-12-11 dated 11th June 1915 requires to be revised and brought up-to-date on the basis of the actual work -- done during the last two years. I am --

therefore

(254)

therefore directed to request that a detailed revised schedule of obligatory works to be done for the several departments (both paying and non-paying) as contemplated in Government Order Nos. M. 5501-50/P&S 74-21-1 dated 1st June 1922 and E. 1000-50/P&S 25-22-1 dated 8th August 1922 may be prepared and submitted for approval of Government, indicating how far the revised list varies from the present standing list.

I have etc.,

25/4

Jw Chief Secretary to Govt.
